

3D Generalist Cover Letter

814 Bashirian Freeway New Timmy, NJ 05521-7847

Dear Tatum Johnston,

I submit this application to express my sincere interest in the 3D generalist position.

Previously, I was responsible for proactive solutions and enhancements to VFX pipeline and trouble-shoot technical issues through-out the production.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Other software skills that would be an advantage would include Mari, Mudbox, Zbrush, Vue, and LDD
- Intermediate knowledge of lighting, rigging and animating preferred
- Adaptive learner – high capacity to learn new tools and processes
- Create high quality 3D assets with emphasis on characters & environments
- Experience in shading using both templates and creating from scratch
- Experience in sculpting
- Look Dev Shader experience (Vray / Maya)
- Experience in Nuke, SpeedTree, Terragen and Yeti an asset

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Reese Metz
