

Ab Initio Developer Cover Letter

5024 Moore Views West Celesteshire, UT 98142

Dear Emery Hegmann,

I submit this application to express my sincere interest in the ab initio developer position.

Previously, I was responsible for expertise and continuity across both the business solution and technical solution involving Ab Initio Builds effective relationships with all stakeholders including federated project teams, BU SPOC, GIS etc.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Define error handling strategies using USPS toolset
- Work with DBA group to identify performance issues and assist to remedy the issues
- Develop mappings, sessions and workflows as per specifications
- Create deployment packages migration documentation
- Shell scripting on UNIX and Linux platforms
- Experience with TOAD, SQL Developer and other Oracle Tools
- Working knowledge of Teradata databases
- Local to the Raleigh, NC area - Relocation assistance not provided

Thank you for your time and consideration.

Sincerely,

Drew Jacobson
