

Ab Initio Developer Cover Letter

184 Towne StreamEast Daphne, TN 42764

Dear Stevie Lehner,

I submit this application to express my sincere interest in the ab initio developer position.

In the previous role, I was responsible for solutions that serve for the next generation of use and capability; thus understanding the Architecture Runway and its ability to service the product developed.

My experience is an excellent fit for the list of requirements in this job:

- DevOps – scripting/release automation and configuration processes using strategic tools such as Jenkins/Nolio/GIT/STASH and familiarity with UNIX shell scripting
- Collaborative, resourceful and resilient
- Structured and able to prioritise and plan own work
- Knowledge of tools and industry developments
- Can estimate, plan and organise own tasks in collaboration with other streams – self starter
- Has driven the development of documentation
- Experience with existing Air Force Human Resources data and systems
- Knowledge of SAFe

Thank you for taking your time to review my application.

Sincerely,

River Crist
