Ab Initio Developer Cover Letter

470 Renaldo RowPort Brendonbury, ID 70041

Dear Skyler Raynor,

I would like to submit my application for the ab initio developer opening. Please accept this letter and the attached resume.

Previously, I was responsible for input to high quality technology solutions that address business needs by developing applications within emerging and mature technology environments.

My experience is an excellent fit for the list of requirements in this job:

- Excellent UNIX scripting skills
- Proven database knowledge, such as DB2 or Netezza
- Demonstrated Data Warehouse knowledge, specifically in Data Warehouse schemas and Data Mart schemas
- Big Data skills with Hadoop, Hive, Linux
- Experience having performed Ab Initio upgrades
- Experience with Ab Initio EME and code migrations
- Ensuring Test-driven development, on-boarding Ab-initio applications to Cloud
- Background of administration and development experience in metadata management and AB Initio software platform

Thank you for considering me to become a member of your team.

Sincerely,

Bellamy Monahan
