

# Ab Initio Developer Cover Letter

7781 Streich Throughway Rickbury, MA 63491-1251

**Dear Quinn Kshlerin,**

I submit this application to express my sincere interest in the ab initio developer position.

In my previous role, I was responsible for high quality technology solutions that address business needs by developing applications within emerging and mature technology environments.

My experience is an excellent fit for the list of requirements in this job:

- Development of - code, unit test, debug, maintain, and modify software programs utilizing the standard tools set forth by TransUnion
- Design and implement highly distributed, scalable and performant ETL
- RDBMS experience and SQL experience
- Plans, performs, and acts as the escalation point for the most complex
- Should Contribute to Controls build standards improvements
- Should lead a team of developers working across a number of simple or moderately complex controls, or on a large complex control
- Ab Initio, Hive, Hadoop, Teradata, UNIX, LINUX, Tivoli
- Experience working in a Agile Model, global resource model, distributed teams, and cross cultural experience

**Thank you for taking your time to review my application.**

Sincerely,

Brooklyn Keeling
