ABAP Programmer Cover Letter

50077 Murphy CliffsRafaelmouth, TX 45252-4896

Dear Shae Shanahan,

Please consider me for the ABAP programmer opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for thought leadership in support of the design, build and deployment of SAP functionality including process road mapping.

My experience is an excellent fit for the list of requirements in this job:

- Have pondus and impact to manage an important business area and many daily dilemmas
- Production support responsibility for ABAP programming
- Programming responsibility in numerous enhancement projects including solution design, testing, and training
- Experience preferably in a mid-sized to large Manufacturing environment
- Review and analyze functional specifications, blueprint documents, and other information to determine and recommend technical approach and solution and to provide estimated effort to implement new software solutions
- Develop, test and implement new system functionality and maintain existing code including programs, work flows, forms, and other software applications through ABAP programming
- Provide user acceptance testing support and resolve defects
- Perform incident root cause analysis and resolution

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Finley Hermann
