

ABAP Programmer Cover Letter

38356 Nicolas Route Julioton, AZ 27851

Dear Tatum Sawayn,

I submit this application to express my sincere interest in the ABAP programmer position.

In the previous role, I was responsible for technical support during the major production issues in the SAP estate – Facing off to the service management team in understanding the business impact and the steps to address.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience in SRM/Workflows preferred
- Understanding of full systems development lifecycle from requirements gathering through implementation of various
- Functional knowledge in any area Procure to Pay, Order to Cash, Plan to Produce, Close to Report processes is
- Work in a structured way and take pride in always fulfilling promises/deadlines
- Able to communicate proficiently in Danish and English
- Able to work together with the team in an informal and flexible workplace
- Experienced people manager who can coach and lead employees in a department with high complexity, professionalism and pride
- Entrepreneurial, proactive, have drive and a good sense of humor

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Oakley Sipes
