Dear Dylan Powlowski,

I would like to submit my application for the access analyst opening. Please accept this letter and the attached resume.

Previously, I was responsible for overall support to Remote Access (Xen Desktop / XenApp / MFA / Sharefile / Azure / NetScaler / RSA and NERC CIP) Operations C&I, IT Operational areas, Program Management, Release & Change Management, supporting the production environment across multiple technologies.

Please consider my experience and qualifications for this position:

- Business development and vendor management experience
- Demonstrated relevant work experience in a Business Analyst or similar role preferably in Identity & Access Management (IAM) or Information Security
- Proven experience in a detailed analytical role (IAM or Information Security or Operations Controls)
- Strong, proactive task-based approach with focus on delivery – often will act as individual contributor
- Individual will work predominantly in UK shift, flexibility with shifts is desirable
- Experience with Cisco, Juniper or Pulse secure gateways
- Working knowledge of the OSI network model, Ethernet, and TCP/IP networking
- Excellent interpersonal, problem solving and critical thinking skills

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Peyton Kunde
