

Access Developer Cover Letter

36888 Dani FortMcClurebury, IA 93829

Dear Rory Grimes,

I would like to submit my application for the access developer opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for enterprise-wide data warehouse expertise with emphasis on data design, access, usage, security, and quality of information.

My experience is an excellent fit for the list of requirements in this job:

- Experience in cloud infrastructure (AWS/Azure/OpenStack)
- Experience in CI/CD methodologies
- Configuration/Deployment experience in monitoring solutions like OEM, New Relic, DynaTrace, Amazon CloudWatch
- Knowledge about Enterprise applications used at GW such as Ellucian's Banner, Oracle's eBusiness Suite, Remedy, Documentum
- Experience creating web applications using Grails and Angular.js
- Experience developing RESTful and soap based web services
- Understanding of relevant concepts like Basic HTTP authentication, forms-based authentication, SAML and OAUTH
- Participate in the analysis, design, development and maintenance of cross-platform software components

I really appreciate you taking the time to review my application for the position of access developer.

Sincerely,

Tatum Konopelski
