

# Access Engineer Cover Letter

60133 DuBuque ShoresCassinfort, NH 09513

**Dear Avery Parisian,**

In response to your job posting for access engineer, I am including this letter and my resume for your review.

In the previous role, I was responsible for sophisticated Active directory troubleshooting skills with tools such as PowerShell.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Database knowledge and Data Analytics, Microsoft Access/SQL
- Execute, Design and write Test Cases and Test Plans for important software features and maintain up to date documentation related to it
- Provide input for customer specific escalations
- Maintain a constant pace of TCs /tasks execution
- Raise delays and bottlenecks in testing activities and plans
- Root cause isolation and proper bugs logging to focus on problem description, steps to reproduce, relevant logs and files attachment
- Experience with networking TCP/IP protocols, CCNA level (CCNP preferred)
- Experience scripting languages such as TCL or Python

**Thank you for taking your time to review my application.**

Sincerely,

Zion Rohan
