

# Access Engineer Cover Letter

237 Paucek Courts New Deshawn, AK 39150-5236

**Dear Emerson Macejkovic,**

I would like to submit my application for the access engineer opening. Please accept this letter and the attached resume.

Previously, I was responsible for expertise in threat modeling, security requirements, privacy and security assessments, vulnerability assessments and conformance with good security practices and corporate governance.

Please consider my experience and qualifications for this position:

- Strong Expertise and Hands-on Experience with RBAC and ABAC design and implementation
- Privileged Access Management (PAM) and platform support experience
- In-depth working knowledge across multiple technical disciplines and vendor products that include Data Layer 2 Networking communications, IP security strategies, Converging technologies, Broadband, IP-VPN, DWDM, MPLS/VPLS, Metro Ethernet, DIA, IP Transit and LAN/WAN integration
- In-depth working knowledge across multiple technical disciplines and vendor products that include Data and IP Addressing strategies, BGP, VLAN & MAC Addressing, Converging technologies, Broadband, VoIP/ SIP, IP-VPN, DWDM, MPLS/VPLS, Metro Ethernet, Systems, and LAN/WAN integration
- Experience in the design and implementation of complex Layer 2 Ethernet Networks including MEF, E-Access, E-LINE and E-LAN, MPLS, Dedicated Internet Access, IP Transit and DOCSIS solutions
- Self-motivated and be able to work autonomously and in an account team environment
- Experience with Active Directory and/ or SAP
- Experience with SailPoint, preferred

**Thank you in advance for taking the time to read my cover letter and to review my resume.**
