Dear Royal Upton,

I would like to submit my application for the access management opening. Please accept this letter and the attached resume.

Previously, I was responsible for development and analysis for security related use of Thycotic Secret Server, CMDB and Active Directory.

My experience is an excellent fit for the list of requirements in this job:

- Demonstrated experience implementing Identity and Access Management (IAM) technologies and supporting processes
- Significant experience implementing and managing IAM technologies and supporting processes
- Advanced skill with architecture, design, and administration for multiple technologies and trends
- Familiarity with clustering technologies
- Demonstrates the key critical behaviors of commitment to task, communication, customer focus, decision making / problem solving, flexibility, tolerance of ambiguity, planning, prioritizing and goal setting
- Lead a team of Junior and Senior Access Control Specialists
- Knowledge of computers and telecommunication equipment
- Experience with ForgeRock, Activiti, or Brainwave GRC

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Max Lesch
