

Access Management Cover Letter

56848 Tremblay Cove South Clinton, MO 47072-4345

Dear Landry Kertzmann,

I submit this application to express my sincere interest in the access management position.

Previously, I was responsible for connectivity for account management with a variety of infrastructure repositories such as: Windows (2010,2012), SecureID, Firmwide Directories, REST-full interfaces, MIT Kerberos and others.

Please consider my qualifications and experience:

- Strong knowledge of Active Directory & ADCS
- Experience with Acitviti & Brainwave GRC
- Advanced IS certifications (CISSP, SANS, etc)
- Knowledge of architecture, design and implementation of IAM technologies
- Good communication skills to clearly communicate and articulate the business benefits of various IAM strategies and alternatives to customer stakeholders at all levels
- Help produce and deliver high quality work products including formal deliverables, technical documentation, presentations, proposals
- Knowledge of SOX, GLBA, Information Security/technology, CISSP, CISM and/or Six Sigma
- Microsoft Exchange Administration or Server Administration experience

I really appreciate you taking the time to review my application for the position of access management.

Sincerely,

Royal Marquardt
