

Associate Product Manager Cover Letter

1538 Joaquin LockSchummburgh, HI 20300

Dear Story Borer,

I submit this application to express my sincere interest in the associate product manager position.

Previously, I was responsible for recommendations, strategic plans and insight to the marketing manager regarding the specific portfolio and how to exceed market growth in that portfolio.

My experience is an excellent fit for the list of requirements in this job:

- Knowledge of content subscription services and user experiences in the movie, TV and music industries
- Experience with residential and commercial electrical codes and standards such as UL, IEC, ASHRAE
- Familiarity with transfer switches and/or backup power market
- Knowledge of product management role and/or new product development activities
- Interest in business principles and future pursuit of MBA
- Excellent organizational, analytical, verbal communication and written communications skills
- Practical work experiences
- Experience of supporting products from concept to launch, got to market strategy, user stories and road maps preferred

I really appreciate you taking the time to review my application for the position of associate product manager.

Sincerely,

Emerson Homenick
