

Associate Software Engineer Cover Letter

9738 Kirlin KnollsMurrayborough, NY 67027

Dear Justice McDermott,

I am excited to be applying for the position of associate software engineer. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for java and related programming expertise for further development and refinement of the BRICS system.

Please consider my experience and qualifications for this position:

- Curiosity to learn the latest and experiment, attitude to challenge the standards or conventions
- Deep passion to "automate everything"
- Comfortable designing, implementing, and championing the test platform
- Skilled in C / C++
- Experience with debugging unfamiliar code
- Knowledge of Blizzard games
- Exposure to Mutual Fund /Financial Services industry would be an advantage
- Expertise with C# / .NET or Java

I really appreciate you taking the time to review my application for the position of associate software engineer.

Sincerely,

Jordan Homenick
