

Incident Analyst Cover Letter

239 Mueller LightSalfort, IN 90432-6553

Dear Tyler Walsh,

I am excited to be applying for the position of incident analyst. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for intrusion detection monitoring and incident management, to include installation, configuration, operation, and system administration of the GFE intrusion detection monitoring and incident management tool suite on-site 24x7 at Scott AFB.

Please consider my experience and qualifications for this position:

- Knowledge or working experience as a Security Operations Center Analyst is an advantage
- Training or working knowledge of ITIL Event Management, Incident Management and Security Operations
- Investigations in support of criminal or civil litigation
- System testing and use case development in support of highly technical customized applications
- Strong knowledge of tools used for network security (DLP, NIPS, HIPS, AV, Firewalls)
- Solid experience working with Internet and network technologies
- Manages many levels during an incident call including Manager, Director, and VP
- Experience with scripting in Python, Bash, Powershell

Thank you for your time and consideration.

Sincerely,

Story Schneider
