

Incident Analyst Cover Letter

471 Considine BurgFlatleyberg, VA 36765-9250

Dear Finley Ledner,

I submit this application to express my sincere interest in the incident analyst position.

In my previous role, I was responsible for tier 2 analysis of Intrusion Detection Systems (IDS) to identify security issues for remediation.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Requires moderate knowledge of Government payments industry and technology
- Requires in-depth knowledge and experience within incident response to operate independently with limited guidance and oversight
- Understanding of network and system intrusion and detection methods
- Demonstrable experience performing incident response and IT forensic investigations
- Top Secret – Sensitive Compartmented Information (DIA Adjudicated or capable of reciprocal acceptance by DIA) clearance
- The Incident Manager will help coordinate resources and activities during service interruptions affecting customers through restoration of service
- Collection and management of threat intelligence
- Network skills, including TCP/IP-based network communications

Thank you for taking your time to review my application.

Sincerely,

Riley Strosin
