

Investment Banking Analyst Cover Letter

25345 O'Reilly BypassEbertton, KY 17454-1674

Dear Azariah Donnelly,

I submit this application to express my sincere interest in the investment banking analyst position.

In my previous role, I was responsible for support to other departments such as Finance, Treasury, Corporate Accounting, Marketing, Environmental, and internal and external auditors.

My experience is an excellent fit for the list of requirements in this job:

- Cumulative GPA of 3.5 or above preferred but, open to all applicants
- A mix of financial and technical background in engineering and/or geology will be viewed favorably
- Strong data modelling and analytical skills
- High proficiency in Microsoft Excel and other Microsoft Office products
- Knowledge of the oil & gas industry (E&P, oilfield services, midstream, downstream)
- Energetic and decisive, with a high level of integrity
- Experience in systems development life cycle, authorizations/Tandem applications
- Analyze business requirements and data across diverse sub-systems, create functional and technical requirements in an effort to effectively integrate proposed functionality throughout the platform

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Bellamy Hickie
