

IT Auditor Cover Letter

356 Prince BurgPort Wilford, AR 47636

Dear Ryan Batz,

I am excited to be applying for the position of IT auditor. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for input on necessary compliance controls relative to new systems implementation and existing systems controls.

My experience is an excellent fit for the list of requirements in this job:

- We are looking for someone with some analytical horsepower who has a background in Tableau, SQL, Python and/or R
- Conducting a variety of I.T
- Working closely with business unit teams in developing audit findings and recommendations regarding system functionality, business process optimization, internal controls and compliance
- Assisting in establishing common processes, policies, and procedures across an international company
- Assisting in the development of our state-of-the-art Continuous Auditing & Monitoring Program that monitors real-time data across the company
- Acting as a liaison with IT business partners to ensure full understanding of IT processes, such as data flow, data integrity, system security
- Assisting in the preparation of risk assessments ensuring that risks inherent to or arising from Information Technology infrastructure and applications are properly identified and addressed
- Participating in the development of an IT audit plan using an appropriate risk based methodology developing project specific work-plans

Thank you for taking your time to review my application.

Sincerely,

Landry Homenick
