IT Auditor Cover Letter

998 Bosco BrooksNorth Kennithhaven, IA 54491-0902

Dear Emerson Zboncak,

I would like to submit my application for the IT auditor opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for strategic direction for the design and execution of testing plans to analyze and evaluate risks and controls for business applications used to support key business operations, information security, business and operational systems, networks, general computer controls, IT infrastructure, and other systems related processes and risk areas including those related to company objectives.

Please consider my experience and qualifications for this position:

- Capable of working effectively within and across diverse teams and quickly understanding business processes
- Performance of risk assessments
- Assess opportunities to improve processes and controls
- Proficient in use of personal computers and Microsoft Office products
- Strong knowledge of risk based advanced IT auditing in a dynamic and changing – international SAP environment, , applying appropriate IT control frameworks (e.g., COBIT) to help evaluate areas of risk
- Proficient in speaking, writing and reading the English Language
- Report deficiencies and propose remediation plans
- Knowledge of system development methodologies and tools

Thank you for taking your time to review my application.

Sincerely,

Quinn Schmitt
