

Lead Business Analyst Cover Letter

265 Pfeffer DrivesHaleychester, TX 67108-1046

Dear Bellamy Schroeder,

I submit this application to express my sincere interest in the lead business analyst position.

Previously, I was responsible for maintenance of existing BI solutions - Aruna, Performance Dashboard, SSIS packages, SSAS Cubes, SSRS/Excel MI reports.

Please consider my experience and qualifications for this position:

- Exposure to MS Office products like Visio and Excel
- Good knowledge of database & reporting technologies/systems
- Well versed with concepts around mutual funds, stock markets, securities – equity, fixed income and derivatives
- Knowledge of fund accounting, fund performance, attribution & risk measures is desirable
- Experience with Retail related technologies such as Point-of-sale, employee portal, sales tools, retail store management platforms
- Experience with Financial Services or payment related technologies such as tender, authorization, credit application, gift card, EMV or other PCI-related systems
- Experience with Secondary markets or reverse logistics systems such as product returns, resale, warehouse management, product logistics and refurbishment
- Have strong analytical and communication skills, to liaise with business stake holders and convert concept into Business Functional Requirements

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Tatum Hammes
