

Manager, Technology Cover Letter

79145 Sauer SpursCarterchester, AK 14559

Dear Onyx Toy,

Please consider me for the manager, technology opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for sME level support for the engineering IT environment, which may include workstations, servers, network storage and file shares, Active Directory (Users, Groups, Security Permissions, etc), and engineering software applications.

Please consider my experience and qualifications for this position:

- Experience in public sector or higher education procurement
- Experience working with large organizations and managing client/customer relationships
- Experience with strategic sourcing methodologies, practices, and supporting technologies
- Experience with spend analysis technologies (e.g., Zycus, Rosslyn Analytics, Spend Radar)
- Advanced knowledge in designing, testing, scaling, troubleshooting, and analyzing complex systems
- Knowledge of technologies from multiple vendors such as Dell, VMWare, Microsoft, Cisco, EMC, Oracle, F5, and Riverbed
- Knowledge of technologies such as application and server virtualization, Application hosting, Server management, monitoring, Windows, Linux and UNIX
- Evidence of successful management of critical system infrastructure

Thank you for taking your time to review my application.

Sincerely,

Phoenix Marvin
