

.NET Architect Cover Letter

64610 Rene PathNorth Cleliafurt, SC 89442-2586

Dear Sutton Wilkinson,

I submit this application to express my sincere interest in the .NET architect position.

In the previous role, I was responsible for guidance on functional solution architecture & design, application and integration development best practices, enterprise architecture standards, environment management, testing, and <http://force.com/> target="_blank"> Force.com platform education.

Please consider my qualifications and experience:

- Experience in unit testing frameworks such as NUnit, SpecFlow, MSTest
- Experience in build tools such as Jenkins, TFS, CruiseControl.NET
- Experience in profiling tools such as Telerik JustTrace, dotTrace, NProfiler
- Experience in designing Microsoft applications
- To be the one defining the architecture in global applications with thousands of users all over the world
- To work with exciting techniques and development practises in a complex technical environment
- Possibility to contribute in development of architectural frameworks and ways of working
- A workplace where we value Customer success, Trust, Passion, Change and Performance

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Justice Rolfson
