.NET Architect Cover Letter

444 Juan LockEast Freddie, AZ 09782-9956

Dear Ryan Gottlieb,

I am excited to be applying for the position of .NET architect. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for education and training for service-oriented and API driven integration technologies and patterns to business units.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience with ASP.NET web technologies
- Expertise in relational databases like SQL Server and building graphical user interfaces like WinForms/WPF/Universal Windows Platform
- Experience with Visual Studio Report Designer (RDLC)
- Excel, MS Access
- Electronic engineer or Electrical engineer
- Understanding of SOAP in implementation of web services
- Understanding of the Electric Utility industry valuable
- Understanding of electric metrology technology valuable

I really appreciate you taking the time to review my application for the position of .NET architect.

Sincerely,

Skyler Abernathy
