

.NET Architect Cover Letter

430 Dannie LakeBrownborough, MA 32868

Dear Shae Lueilwitz,

I am excited to be applying for the position of .NET architect. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for solutions based on Enterprise Integration patterns, Event Driven Architecture, REST Web Services and Micro Services.

Please consider my experience and qualifications for this position:

- Excellent skills in architecture, design and implementation of enterprise application and products development using J2EE technologies
- Knowledge of OOP, OOD and design patterns (IOC)
- Knowledge and experience working with C# 5.0 including the latest versions of ASP.NET MVC, Web API
- Knowledge and experience working with REST, SOAP, WebSockets
- Solid knowledge of JavaScript, HTML5 and JavaScript frameworks (jQuery, Angular.js)
- Understanding of Agile software development method
- Experience in teamwork based on SCRUM method
- Knowledge of ASP.NET, WPF, WCF, Entity Framework

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Campbell Schulist
