Dear Stevie Leannon,

Please consider me for the .NET engineer opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for full design, planning, configuration, documentation, deployment and top-level support ownership of the Web/Resource Management applications utilizing back-end database queries/connections.

Please consider my qualifications and experience:

- Experience working with Angular 1.x
- Experience working with the full Microsoft technology stack, including .NET 4.x/C# ,SQL Server, Web API, SignalR
- Experience with RESTful Architecture experience
- Object Relation Mapping such as Entity Framework or nHibernate
- Applied knowledge of HTML5, Javascript and CSS3
- Applied knowledge and passion for unit/integration testing and related frameworks, such as xUnit, nUnit, Moq
- Applied knowledge of browser-based web applications delivered over the Internet
- Applied knowledge of Inversion of Control (IoC) containers such as Autofac

I really appreciate you taking the time to review my application for the position of .NET engineer.

Sincerely,

Stevie Corkery
