Dear Rory Mayer,

I would like to submit my application for the .NET engineer opening. Please accept this letter and the attached resume.

Previously, I was responsible for guidance on secure configuration of systems and services exposed to Internet sources, as well as on all cloud related projects.

My experience is an excellent fit for the list of requirements in this job:

- Development (TDD), Microsoft Team Foundation Server (TFS) and Developing in an Agile environment
- Passion for developing web based solutions that exceed
- Including, but not limited to, communication with technical peers, managers
- And writing / presenting innovative ideas
- Exemplifies a willingness to keep skills current
- Knowledgeable of secure development practices
- Schedules, evolving requirements and new technologies
- Willing to be accountable for performance and not shirk

Thank you for your time and consideration.

Sincerely,

Armani Gibson
