Dear Bellamy Spinka,

I am excited to be applying for the position of .NET engineer. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for technical expertise in the areas of system design, installation, configuration, tuning, capacity planning, troubleshooting, patching, monitoring, and problem resolution.

Please consider my experience and qualifications for this position:

- Experience using Agile Scrum software development life cycle
- Experience using source control management tools such as Microsoft Team Foundation Server (TFS), and Git
- Flexibility to work during EMEA/US shifts
- Applied knowledge of Inversion of Control (IoC) containers such as Unity
- Experience with SVN, COM
- Knowledge of ATL, MFC
- Knowledge of and experience with Jira
- Understands the software development life cycle and software methodologies including Object Oriented design methodologies

Thank you for considering me to become a member of your team.

Sincerely,

Greer Abbott
