

.NET Engineer Cover Letter

105 Hermiston CapeNew Alfredville, CA 58738-9454

Dear Reese Kirlin,

I would like to submit my application for the .NET engineer opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for advanced support for global switches, wireless controllers, and access points (Support consists of design, installation, configuration, troubleshooting, tuning and maintenance).

Please consider my experience and qualifications for this position:

- Able to use own initiative, work methodically and deliver to deadlines
- Can work independently team player
- Excellent communication skills across organization
- Intermediate English skills - spoken and written
- Strong knowledge of .NET
- Thorough understanding of software development processes and procedures
- Intermediate (B1) and higher level of English
- AngularJS, Bootstrap, Code First Entity Framework, LINQ, Test Driven

Thank you for considering me to become a member of your team.

Sincerely,

Casey Sauer
