Dear Quinn Hilll,

Please consider me for the .NET engineer opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for technical expertise in the areas of system design, installation, configuration, tuning, capacity planning, troubleshooting, patching, monitoring, cloud management and problem resolution.

Please consider my qualifications and experience:

- Able to provide estimates of assigned work effort
- MVC design patterns
- AngularJS 2 familiarity
- Maintain flexibility with regard to participating on other team projects as roles evolve and develop
- Experience in software engineering processes and methodologies
- Experience with Git or other distributed version control system
- Full SDLC experience utilizing Scrum/Agile methodologies
- Strong experience with web services and APIs

Thank you for taking your time to review my application.

Sincerely,

Baylor Abbott
