

.NET Lead Cover Letter

6629 Schiller Squares West Patland, ID 46864

Dear Tatum DuBuque,

I submit this application to express my sincere interest in the .NET lead position.

Previously, I was responsible for installation, configuration, implementation, integration and commissioning of 1-Net product and services to internal and external customers.

My experience is an excellent fit for the list of requirements in this job:

- Very good knowledge of OOP design principles and patterns
- Proficient with developing application components that rely on the .NET framework
- Accustomed to developing software using Agile methodologies (especially Scrum)
- Capable of acting as a technical lead and mentoring people
- Very good command of English (both written and oral)
- Comfortable with using UML to model software designs
- Skillful in designing web services APIs (both SOAP and REST)
- Experience in working with cloud computing platforms

I really appreciate you taking the time to review my application for the position of .NET lead.

Sincerely,

Brooklyn Senger
