**Dear Alexis Pacocha,**

I am excited to be applying for the position of .NET lead. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for routine and ad-hoc analysis by customer, product group, KOB, destination and industry, acting as a Business Partner for the Sales & Product Management teams and help in developing the business and achieve targets & goals.

My experience is an excellent fit for the list of requirements in this job:

- Stays abreast of new technologies with the goal of utilizing new technology to enhance current capabilities or deliver new functionality
- Effectively communicates and interfaces with internal and external stakeholders
- Uses effective and professional communication skills both verbal and written
- Experience managing a team of technical people
- Experience managing multiple client projects
- Track record for delivering technology innovation that offers value for clients
- BA or BS, preferably in computer science, engineering or science / technology-based discipline
- Good understanding of DevOps principles and tools preferred (Jenkins, Artifactory, MSBuild)

**Thank you for your time and consideration.**

Sincerely,

Greer Homenick
