

Product Manager Cover Letter

541 Bins MountainsSouth Ezekielton, TX 95775

Dear Tyler Bartoletti,

I submit this application to express my sincere interest in the product manager position.

In my previous role, I was responsible for regulatory product strategies, influence and make strategic recommendations and input to other QRC functions for a cohesive QRC response to the business units that will ensure corporate compliance with the regulations.

Please consider my experience and qualifications for this position:

- Serve as a technical expert and consultative resource for Customers, Outside Sales and Distributors worldwide
- Manage the product line and product life cycle
- Work closely with R&D and Product Stewardship to align present and future priorities to advance the protfolioto meet the market and customer needs to drive growth
- Organize and conduct research activities related to our own product performance and competitor products
- Analyze and interpret trends concerning technical products (hardware and foam agents) and services
- Develop and maintain a positive relationship with key customers, suppliers and company staff
- Capable of analyzing technical product data
- Month end summary product report for management

Thank you for considering me to become a member of your team.

Sincerely,

Skyler Hirthe
