

# Senior Manager, Technology Cover Letter

5167 Langosh Park  
New Becky, OH 31988

**Dear Jordan White,**

Please consider me for the senior manager, technology opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for overall strategic direction and management of the governance, funding and delivery of services by the Emerging Technology and Digital Innovation teams.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Have a positive "can do" outlook
- Be able to find creative solutions to periodic problems
- Be a self-starter who can function with minimal supervision, has a strong work ethic and manages time effectively
- Have a broad understanding of technology, be able to initiate and close licensing and research collaboration opportunities
- Be able to adapt and prosper when confronted with changing circumstances, and is able to maintain motivation and enthusiasm through adversity
- Experience delivering modern, responsive web user interfaces using modern technologies (Javascript, RESTful API's, Angular JS)
- Knowledge of various types of IT project methodologies and life cycles, , conversions, incremental, rapid delivery, classic Agile or traditional Waterfall phases of analysis, design, development, testing, implementation and the correct project application
- Experience implementing large-scale programs in a complex, multi-disciplined organization

**Thank you in advance for taking the time to read my cover letter and to review my resume.**
