

# Systems Analyst Cover Letter

4362 Ed PointNellefort, IA 87514

**Dear Armani McLaughlin,**

I am excited to be applying for the position of systems analyst. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for recommendations on IT resources and identify opportunities where we can improve efficiency of business processes.

Please consider my qualifications and experience:

- Experience installing and/or configuring network management systems such as HP Network Node Manager (NNMi) or Solarwinds Orion is preferred
- Results oriented with exceptional organizational skills able to work independently
- Knowledge of Microsoft Operating Systems, web application development and relational databases
- Of operations
- Of SQL databases
- Experience with DoD Local and Wide Area Network (LAN and WAN) environments, including help desk, systems administration, or training on a Windows, UNIX, or Linux based system
- Experience with Active Directory or VMWare ESX products
- Knowledge of inventory transactions related ALE/IDOC and B2B processes/PIP mapping

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Spencer Pollich
