Systems Analyst Cover Letter

46561 Van RouteSouth Sidhaven, MN 46191-8449

Dear Peyton Weimann,

In response to your job posting for systems analyst, I am including this letter and my resume for your review.

In the previous role, I was responsible for and implement solutions for underperforming centralized services and system; while identifying opportunities to improve overall HR effectiveness and performance.

My experience is an excellent fit for the list of requirements in this job:

- Expertise in defining business processes and recommending changes
- Process improvement and user training / communication / change management
- Experience with Oracle Cloud, Oracle ERP, Oracle EBS, Hyperion Budget and Planning, Smartview
- Experience with Oracle Integrations and Templates
- Previous experience with Firewalls
- Knowledge of Networking Architectures, industry best practice routing and switching design principles
- Previous experience with Fortinet or Checkpoint
- Integration experience between warehouse management systems (WMS), ERPs, and/or Middleware, specifically TIBCO or WebMethods preferred

I really appreciate you taking the time to review my application for the position of systems analyst.

Sincerely,

Phoenix Kemmer
