

UX Architect Cover Letter

26186 Blanda KeysEast Marcos, HI 07148-2576

Dear Skyler Macejkovic,

In response to your job posting for UX architect, I am including this letter and my resume for your review.

Previously, I was responsible for consultancy-level advice and design thinking to stakeholders on user experience, usability, visual design, research and information architecture.

Please consider my experience and qualifications for this position:

- Comfortable presenting design solutions and justification to team and peers
- Lead the UX design function
- Mentor and develop talent
- Lead the interaction design phase on large and complex projects from the sketching of key functional concepts through to wireframes and rapid prototypes in a fast paced and exciting environment
- Workflow Prioritisation
- Develop and maintain a close relationship with product management and senior directors
- An excellent portfolio of solutions across the spectrum of design, covering different platforms and services
- Experience managing teams & mentoring designers of different experience levels

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Royal Hane
