

UX Architect Cover Letter

65773 Brice Summit South Donnellfort, SD 90822-2614

Dear Emerson Goyette,

I submit this application to express my sincere interest in the UX architect position.

In my previous role, I was responsible for leadership and direction in designing the experience model across channels along with promoting and applying user-centric design thinking on projects.

Please consider my experience and qualifications for this position:

- Proven track record in identifying, justifying and subsequently solving challenging or complex interaction design problems
- Leading and growing teams / identifying and developing talent
- High level of competency with various qualitative research methods / tools (UserTesting.com, Optimal sort)
- Diplomatic and collaborative with a calm temperament, able to work within large cross disciplinary teams
- High level of competency with relevant creative tools (Axure, Visio, Sketch, Adobe suite)
- Experience in a relevant analytics suite (Google Analytics, Adobe Omniture or other)
- Very experienced in designing for multiple platforms (Desktop, Mobile & Tablet web / apps)
- Experience in responsive or adaptive design methods

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Blake Strosin
