

UX Architect Cover Letter

505 Nader InletNorth Joselyn, KY 27804

Dear Azariah Lynch,

In response to your job posting for UX architect, I am including this letter and my resume for your review.

In the previous role, I was responsible for direction and mentoring to developers and team members on Tableau development, dashboard usability, user experience design and design best practices.

Please consider my qualifications and experience:

- Proven effectiveness working in cross-functional teams that include customers, product management, engineering, executives, marketing, and other User Experience professionals
- Strong vision of technical architecture for architecting/designing large scale enterprise projects
- Strong in modern UI technologies (React/Redux, Angular2, D3, BootStrap)
- Strong in writing Micro Services (NodeJS, Java)
- Strong in NoSQL databases like MongoDB, CouchDB, OR Cassandra
- Continuous Development and Integration with GIT and Jenkins
- Good understanding of PASS platform like OpenShift,, Azure or AWS
- Knowledge on caching solutions like Redis and memcached

Thank you for your time and consideration.

Sincerely,

Peyton Ullrich
