

# 3D Engineer Cover Letter

8178 Buster Ford East Lionel, PA 72931

**Dear Ryan Bernhard,**

I submit this application to express my sincere interest in the 3D engineer position.

Previously, I was responsible for technical expertise into the development, Verification and Validation of Embedded Control in Battery Management Systems for different Rolls-Royce businesses.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Intergraph Certified SmartPlant 3D Designer/System Administrator is preferred
- Completion of admin and user training for SmartPlant 3D
- Experience using and supporting MicroStation J, V8, or V8i
- Experience with Microsoft SQL Server Supporting Windows Operating System
- Knowledge of 3D Plant Design CAD Concepts
- Conversant with Solidworx 3D Cable routing/Composer tool
- Familiarity to Installation engg
- Knowledge of various cable types, Trays, Earthing and Lighting material

**Thank you in advance for reviewing my candidacy for this position.**

Sincerely,

Robin Medhurst
