

# 3D Engineer Cover Letter

3406 Elena Shore East Joellenmouth, SC 25156

**Dear Spencer Haley,**

Please consider me for the 3D engineer opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for in-depth technical guidance to software teams towards development of embedded firmware and applications.

My experience is an excellent fit for the list of requirements in this job:

- A history of problem solving through thorough critical thinking AND the scientific process is strongly preferred
- A foundational understanding of Lean Six Sigma is strongly preferred
- Direct experience creating build trays for and operating 3D printers is strongly preferred
- Strong communication skills with experience in public speaking/presenting strongly preferred
- Strong experience in completing projects of varying scope and complexity
- Foundational leadership training and/or experience is strongly preferred
- Develop deep insights into the needs of our operating companies, patients, customers, markets and communities
- Lead 3D Printing Engineering activities while ensuring an integrated product and process development cycle

**Thank you in advance for reviewing my candidacy for this position.**

Sincerely,

Ari Metz
