

ABAP Consultant Cover Letter

83688 Jacobi FallMarioton, FL 15943

Dear River Walter,

Please consider me for the ABAP consultant opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for full system development and configuration life cycle support for areas like system architecture, operating systems, system performance, patching, upgrades, security, networking, and report development.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Fulfills internal and external quality commitments
- Understand object oriented programming concept and can read UML or BPMN diagrams
- Knowledgeable in SAP ABAP module
- Analyse business requirements, develop solution proposals and specifications
- Work with functional consultants and business analysts to develop functional pilots and system prototypes
- Design and build functional enhancements, interfaces, reports
- Proven track record in complex SAP implementations with substantial system developments
- Very experienced in the development of BAPIs and enhancements

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Phoenix Walter
