

ABAP Consultant Cover Letter

20780 Dillon Passage Lake Germanhaven, UT 05452

Dear Avery Mueller,

In response to your job posting for ABAP consultant, I am including this letter and my resume for your review.

In my previous role, I was responsible for support of Major Incident Management in ABAP and ensure timely resolution of Major Incidents related to ABAP.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Interface development experience
- Able to review and performance tune existing developments
- Use specification of scenarios based on customer business processes in-order-to action the customer implementation
- Implement and code the user experience
- Support and conduct customer workshops
- Plan and coordinate user tests
- Review user experience aspects
- In addition solid understanding of the integration with other SAP modules is essential

I really appreciate you taking the time to review my application for the position of ABAP consultant.

Sincerely,

Shae Stiedemann
