Dear Rory Schimmel,

Please consider me for the AC technician opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for repair and preventative maintenance (PM) on equipment such as: air compressors, compressed dry air dryers, high pressure air compressors, centrifugal pumps, air handlers, piping, valves, process cooling water, chilled water systems, and air abatement systems (scrubbers) and more.

Please consider my qualifications and experience:

- To receive and follow for day to day maintenance call given by Chief Engineer or Assistant Engineering Manager
- Report the summary of job carried out for individual apartments and common area including all used spare parts and accessories
- To carry out general maintenance as per schedule provided by Chief Engineer for MEP Equipment and HVAC system
- Repair and maintenance of Refrigerators, Walk in Chillers, Split AC, Fan Coil Units and Package units including replacement of compressor, condenser coils fan motor, blowers and brazing work
- New installation of Air conditioning system for new locations
- Modification and troubleshooting for any related to the Air conditioning and Refrigeration system such as Refrigerator, Coolers and Deep freezer
- Provide assistant to the team whenever requested for any issues to complete project smoothly and safely
- Contribute to guest satisfaction standard by ensuring that technical support services quickly address

Thank you in advance for reviewing my candidacy for this position.

Sincerely,
