

# AC Technician Cover Letter

203 Bradford RidgesHermistonshire, MA 85708

**Dear Indigo Hettinger,**

I submit this application to express my sincere interest in the AC technician position.

In the previous role, I was responsible for routine services to include preventive maintenance on air side and water side equipment, identifying, installing, maintaining and disposing of all types of filters, cleaning mechanical/transformer rooms, picking up and delivering parts, and assisting higher level heating, ventilation, air conditioning and refrigeration mechanics and or contracted services.

Please consider my experience and qualifications for this position:

- Ensure the quality of all completed by both employers and external contracted staff adheres to the standard of good engineering practice
- Study for consumable spare parts for rectification and to repair instead of replacement within limitation for saving and safety consideration
- Proven knowledge in the operation and maintenance of AC/Refrigeration equipment
- Capable of repairing faulty AC/Refrigeration equipment
- Should have a good command of English
- Qualification in AC/Mechanical Engineering
- Min Higher NITEC/NITEC/Diploma in Electronics/Electrical/Mechanical Engineering
- Knowledge and experience in TPM, PLC and automation with an Electrical license will be advantageous

**Thank you for your time and consideration.**

Sincerely,

Robin Lang
