

# Accenture Strategy Cover Letter

98146 Wyman WellNorth Dan, CA 85425-3408

**Dear Emery Torphy,**

Please consider me for the accenture strategy opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for thought leadership to the Enterprise Architecture team to ensure that long-term digital priorities and collaboration technologies are considered in their respective strategies and roadmaps.

My experience is an excellent fit for the list of requirements in this job:

- An understanding of systems would be helpful but not essential CIS/CRM, EAM, mobility and asset management
- Culturally aware and extremely resourceful
- Clear and concise written and verbal presentation skills and style
- Experience in creating and managing senior level client relationships
- Experience originating and selling through ideas to clients
- Support shaping project approach, key activities, planning
- Manage business analysts and consultants which are part of the project delivery team and assign responsibilities on data gathering activities, modeling, interviews, presentation and others
- Oversee the development of advance numerical models to support quantitative analysis in areas including financial and risk modeling, value chain optimization, price forecasting and supply & demand analysis

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Peyton Durgan
