Previously, I was responsible for technical Support in terms of hardware (IPC's, PLC's, Drives Systems, etc.) and software (Control Settings, High Level Programming, etc.) is concerned according with the Internal Escalation Organization.

Please consider my experience and qualifications for this position:

- Understanding of the basic functions of a university Campus Security office
- Prior work experience in a business office setting
- In depth knowledge of ForeScout network access control tools
- Proficient in UNIX operating systems, especially Red Hat Enterprise LINUX version 5 and above
- Knowledge of electronic security systems and software
- Demonstrated working knowledge of basic low voltage electrical wiring, components and tools
- Proven working knowledge of access control systems, components, installation and architecture
- General mechanical dexterity and abilities to troubleshoot access control equipment (card readers, card printers/laminators, control panel components)

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

River Wolf
