Dear Morgan Graham,

I would like to submit my application for the account engineer opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for the following services for only the LTM, GTM (DNS) and AFM modules on installed F5 equipment:.

My experience is an excellent fit for the list of requirements in this job:

- Proven track record and experience workign with EPC firms
- Working knowledge of standard network protocols
- Proficient in speaking and writing the Arabic language
- Partner with other teams & drive cross-functional efforts with the goal of ensuring high quality on end-to-end product functionality
- Innovate and invest in tools and solutions that'll help increase developer productivity
- Knowledge of embedded system OS like QNX, Linux, Android
- Knowledge of software development with Java/C/C++ in real-time embedded environment
- Familiar with Software development process from requirements to design, implementation and certification

I really appreciate you taking the time to review my application for the position of account engineer.

Sincerely,

Story Armstrong
