

Account Engineer Cover Letter

25847 Kathie Stravenue South Morganchester, NM 28457

Dear Dylan Huels,

In response to your job posting for account engineer, I am including this letter and my resume for your review.

In my previous role, I was responsible for support to F5 SDC and BIG-IP technologies.

Please consider my experience and qualifications for this position:

- Experience in programming using C/C++ Experience in the design of electronic products for the automotive sector
- Extensive industrial operations experience in downstream O&P and chemical facilities
- Working knowledge of the application of Process Safety Management in plant operations
- Extensive knowledge and experience of field construction and facility operations
- Working knowledge of internationally recognized design, construction, asset and fire protection standards
- Working knowledge of the application of Process Safety Management
- Extensive experience in process design, construction, commissioning and operations
- Experience working with major oil and petrochemical EPC Contractors and / or Operations Management in downstream oil, gas & petrochemicals

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Parker Kertzmann
