

Account Engineer Cover Letter

5836 Nolan Highway West Wilmafurt, OH 23071-2558

Dear Tatum Bechtelar,

I submit this application to express my sincere interest in the account engineer position.

In my previous role, I was responsible for technical leadership and guidance to the team, setting strategy, analyzing new technologies and opportunities for building a next generation F5 and IP automation platform.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Good sales sense
- Rich storage expertise
- Automation & orchestration expertise with Ansible, Puppet
- Strong proficiency in MS Word, Outlook, Excel, PowerPoint and Adobe Acrobat Pro
- Experience supporting multiple staff members
- Willingness to learn and work within multiple computer platforms
- Application development against a relational database (preferably Oracle)
- Windows, Linux, UNIX System Administration

Thank you for considering me to become a member of your team.

Sincerely,

Landry McCullough
